Issue date : 26/5/93

Reference : - SANDS - COLOURED

PRODUCT INFORMATION

**PRODUCT NAME/CODE :** Coloured crystal silica

**VERSIONS INCLUDED :** Std colours and fluorescent

**INTENDED USE :** For use as a collage material and in sand and water play.

**PRODUCT DESCRIPTION (CONSRUCTION, COMPONENTS AND MATERIALS) :**  
A high quality white sand with a coating of colour in a water resistant base.

**SAFETY REGULATIONS OR STANDARDS COMPLIED WITH :**

CHEMICAL HAZARDS

**HAZARDOUS MATERIALS PRESENT (nature of hazard, CPL classification, toxicity data)**

**INHALATION** - **Hazard :** Not believed to be significant as supplied due to the coating applied to the sand which reduces the dusting effect found with normal sand.

- **Precautions :**

- **First aid :**

**INGESTION** - **Hazard :** Not believed to be significant.

- **Precautions :** Avoid ingestion of the product.

- **First aid :** The product has a very low order of toxicity and it is unlikely that sufficient volume could be ingested to be a hazard. If in doubt seek medical attention.

**SKIN CONTACT** - **Hazard :** Not believed to be significant.

- **Precautions :**

- **First aid :**

EYE CONTACT - Hazard :

Likely to cause irritation which will disappear on removal of the product.

- Precautions :

Normal care

- First aid :

Rinse with copious amounts of water. If irritation persists after several minutes of rinsing seek medical attention.
