<i>Eye Contact</i>	<i>May cause irritation</i>	<i>Irrigate with water for ten minutes</i>
<i>Inhalation</i>	<i>No effect</i>	<i>-----</i>

#### Fire Fighting.

Flash pnt. None .....Flammable Limits :upper None :lower None

Hazard:- In company with all wax based materials the product will support combustion. The products of combustion will be noxious.

Extinguisher Type :- Foam,Dry Pwdr.,Carbon Dioxide .

#### Accidental Release:-

The product poses no problems in this regard

#### Handling & Storage.

Handling:- Product is not intended nor should be allowed to maintain prolonged skin contact.

Storage :- keep away from heat -store at normal room temp.

Shelf life :- 2 yrs guaranteed

#### Personal Protection:-

The product presents a low order of hazard and therefore does not require any protective equipment in its usage.

#### Physicochemical Data.:-

The product is a waxbased crayon. The melting point will be circa 50 deg.C

Volatility -- N/A.

S.G. ----- 0.9 approx.

#### Stability and Reactivity:-

Stable product and no hazardous decomposition products known other than as noted above.

#### Toxicological Information.

No adverse toxicological effects known at the levels of exposure presented by the product in use, or by accidental damage to bulk quantities of the product.

#### Ecological Information.:-

No known threats to Eco systems known other than the non biodegradability of some of the components used.

Disposal Considerations:-

Burn or bury ,in accordance with local regulations. - "non special " waste

Transport Information:-

Conditions to avoid :- excessive heat and cold will be damaging to product performance and appearance.

Regulatory Information:-

The product complies with the current Toys (Safety) Regulations '89 .(EN71).

\*\*\*\*\*

Additional Information:-

The product may be difficult to remove from clothing etc. . Prompt washing using liquid detergent on the marks will most effectively remove staining.
